Historically Styled Decorative Posts, Luminaires and Arms

Rapid Ship Posts and Luminaires
We offer a wide variety of posts and luminaires for quick delivery to support the fast pace of today’s construction industry. Products in this program are shipped from our factory in just 10 days!

Preserving the Night Sky with Superior Optics
Traditionally styled luminaire designs are combined with high performance cut-off optics to provide nighttime friendly lighting installations. As the market leader in decorative outdoor lighting, Antique Street Lamps offers a multitude of products to meet this need.

Extensive Product Line of Posts, Luminaires, Arms and Accessories
The products represented in the following pages are only a small cross-section of our total capability. Please consult our specifications binder and our website at www.AntiqueStreetLamps.com for complete detailed information.

Custom Design Capabilities
Antique Street Lamps has a long history of creating and engineering project-specific designs. The scope of our experience includes replication of no-longer-available posts and luminaires for historical renovations, or creating completely new and unique signature products.

Intended Use
Antique Street Lamps Rapid Ship posts provide a historical style appearance that is perfectly suited for use with Antique Street Lamps luminaires. Posts are available in 10-foot to 16-foot heights. Typical applications include street lighting, downtowns, parks, public areas and mall interiors.

Features
Materials – The post base is manufactured from heavy-wall, low copper, cast aluminum. The shafts are straight smooth or straight fluted extruded aluminum. Hardware and fasteners are stainless steel material. Standard exterior hardware is of a tamper-resistant design.

Construction – All posts are fabricated as one-piece construction. The shafts are telescoped into the bases and double welded for maximum structural integrity. An integral 3” O.D. x 3” tall tenon is provided for luminaire mounting.

Installation – Posts are provided with four, hot-dip galvanized, ¾” L-type anchor bolts. A door is provided in the base for anchorage and wiring access. A grounding screw is provided inside the base accessible from the door.

Finish – The posts are finished with a premium polyester powder coating. Standard colors are black, dark bronze or dark green.

Shipping – The Rapid Ship Program provides product shipment within 10 days of receipt of order. Please refer to our website at www.AntiqueStreetLamps.com for more information. The specific details about program terms and conditions, order quantities and product availability are shown on our website and are regularly updated.

NOTES:
1. KW12, S9 & MO12 series posts only available with F4 or S4 shaft.
2. F4 and S4 shafts are not available in 16’ height.
3. For finish specifications, see Antique Street Lamps binder, Finish tab.
Rapid-Ship Luminaires

Materials – All luminaire bases and frames are manufactured from heavy-wall, low copper, cast aluminum. Round domes are spun aluminum or cast aluminum. Globes are formed from clear acrylic or polycarbonate and are either smooth, textured or refractive. Hardware and fasteners are stainless steel material. Standard exterior finishes are black, dark bronze or dark green.

Shipping – The Rapid Ship Program provides product shipment within 10 days of receipt of order. Please refer to our website at www.AntiqueStreetLamps.com for more information. The specific details about program terms and conditions, order quantities and product availability are shown on our website and are regularly updated.

Installation – All luminaires are designed to slip fit a 3” O.D. x 3” tall tenon and attach with setscrews.

Light Source – Luminaires are provided with a quick-disconnect H.I.D. ballast and socket assembly.

Finish – The posts are finished with a premium polyurethane powder coating. Standard colors are black, dark bronze or dark green.

UL Listed to US and Canadian safety standards. Luminaires are labeled as suitable for wet locations.
Nighttime Friendly Luminaires

Antique Street Lamps offers a complete line of historically based designs that help prevent nighttime light pollution while providing quality outdoor illumination. This family of traditional luminaires is designed using the Aeris™ reflector system. Various IES cut-off classifications are available depending on the combination of options selected. Detailed information about these luminaires including photometric performance is available on our website at www.AntiqueStreetLamps.com.

Historical Luminaires

Antique Street Lamps offers a large selection of historical luminaires. Below is a sample of some of our most popular designs. Detailed information about our complete selection is available in our catalog or on our website at www.AntiqueStreetLamps.com.

High-Efficiency Architectural Decorative Luminaires, Poles and Arms

Contemporary-Styled Luminaires and Poles

The Eurotique® family offers superior nighttime performance while enhancing the architectural integrity of your project. This product line offers a variety of forms that are carefully scaled to fit each area of your project's outdoor lighting environment. Multiple fixture and arm styles are available in two sizes to complement virtually any architectural style. The modular design concept of the Eurotique® family allows for ease of installation and simple maintenance access to lamp and ballast.

Preserving the Night Sky with Superior Optics

Contemporary-styled luminaire designs are combined with high performance cut-off optics to provide nighttime friendly lighting installations. As the market leader in decorative outdoor lighting, we offer a multitude of products to meet this need.

Custom Design Capabilities

Eurotique® designs have been created and engineered specifically for several custom projects. The scope of our experience includes developing architect-inspired poles and luminaires to complement project style, or creating completely new and unique signature products.

Luminaires

Eurotique® Luminaires are available in two sizes and utilize the Aesis™ reflector system.

Features

Eurotique® Luminaires are available in two sizes and utilize the Aesis™ reflector system.

Options – Anodized segmented reflectors are designed for superior uniformity and control. Reflectors are available in five distributions and attach to the door with internal stainless steel screws.

Materials – All luminaries ballast housings and skirts are constructed of heavy-wall, low copper, cast aluminum. Teardrop globe and half sphere lens options are clear acrylic. Flat and sag lens options are manufactured of clear impact-resistant tempered glass.

Installation – Pendant luminaries are designed to mount to swivel adapters provided with Eurotique® arms. Pole top luminaries are designed to slip-fit 3.375” dia. or 4.375” dia. pole top tenon and attach with (8) socket style set screws.

Light source – Luminaires are provided with a quick-connect H.I.D ballast and socket assembly for ease of maintenance.

Finish – The luminaries are finished with a premium polyester powder coating. Standard colors are black, dark bronze or dark green. Consult factory for special custom colors or verde green finish.

NOTES:
1. Multi-top ballast (120, 208, 240, 277V; 120, 277, 347V in Canada).
3. Consult factory for 40V availability.
4. Available for EM25RT only.
5. Glow ring is not available with distribution SR4SC.
6. For finish specifications and color options, see ANTIQUE Street Lamps binder, finish tab.

Options

- Luminaire Top Styles
  - Ringed top
  - Smooth top
  - Fluted top

- Optional decorative shields
- Optional glow ring
- Optional finial styles

Catalog designation for these options is at the end of the catalog number. Finials are shown at a larger scale to show detail.
Contemporary Arms & Wall Brackets

Eurotique® arms are designed for aesthetically integrating single or multiple luminaires with Eurotique® posts. A matching family of wall brackets provides the ability to integrate building-mounted luminaires with post-mounted site lighting. A wide variety of styles are available to meet the needs of applications such as street lighting, downtowns, parks, public areas and mall interiors.

Features
Arms are available in two sizes. The 4” diameter arms are for the Copenhagen, Stockholm, small Hanover and small Munich Series luminaries. The 5” diameter arms are for the large Hanover and large Munich Series luminaries.

Materials – All cast parts are constructed of heavy-wall, low copper, cast aluminum. Arm tubing, center spools and wall bracket back plates are fabricated from extruded or formed aluminum. Hardware and fasteners are stainless steel material. Standard exterior hardware is of a tamper-resistant design.

Installation – The arms are designed to slip-fit a 3.375” dia. pole top tenon (4” arms) or 4.375” dia. pole top tenon (5” arms) and attach with (8) socket style set screws. The center finial and arm finial are removable to allow for wiring access. Wall brackets are provided with four or six ½” diameter holes for mounting to the wall. Wall bracket mounting hardware is not provided. Arms and wall brackets are provided with swivel adapters for luminaire mounting. Optional twist-lock photocell control is installed at center spool top instead of the finial.

Finish – The arms and wall brackets are finished with a premium polyester powder coating. Standard colors are black, dark bronze or dark green. Consult factory for special custom colors or verdigris finish.

Ordering Information

Example: EAG5/2 PER ANBK

Options: PER NEMA twist-lock receptacle only
PE1 NEMA twist-lock photocell, 120V, 208V, 240V
PE3 NEMA twist-lock photocell, 277V
PE4 NEMA twist-lock photocell, 347V
PE5 NEMA twist-lock photocell, 480V

Finish: ANBK Black
ANDB Dark bronze
ANDG Dark green
ANVG Verde green (custom)
ANPP Prime painted

Most arm styles are available as two-ways and wall brackets. See catalog numbers above for availability.
**Intended Use**

Eurotique® poles provide a contemporary style appearance that is perfectly suited for use with Eurotique® luminaires and arms. Poles are available in 10-foot to 30-foot heights.

**Features**

Poles are available in either aluminum or steel. Poles are of one-piece construction with integral anchor/base plate and two-piece base cover or one-piece cast aluminum base with interior anchor bolts. Aluminum poles are available as round, straight, 4" and 5" or as round stepped, 4"/6.63" and 5"/7". Steel poles are available as round, straight, 4" and 5" or as round stepped, 5"/7".

Materials – Aluminum poles are manufactured of extruded aluminum, with cast aluminum anchor plate or base, base cover and handhole cover or access door. Steel poles are manufactured of steel tubing with steel anchor plates and cast aluminum base cover and handhole cover. Hardware and fasteners are stainless steel material. Standard exterior hardware is of a tamper-resistant design.

Installation – The 4", 5" and 4"/6.63" poles are supplied with four ¾" diameter, L-type anchor bolts. The 5"/7" aluminum poles are supplied with four 1" diameter, L-type anchor bolts. The 5"/7" steel poles are supplied with four 1¼" diameter, L-type anchor bolts. A hand-hole with cover is provided in the lower shaft for wiring access for EPAX and EPSX series poles. PXPD18 is provided with access door. Integral tenons are provided as required for mounting Eurotique® arms and luminaires.

Finish – The poles are finished with a premium polyester powder coating. Standard colors are black, dark bronze or dark green. Consult factory for special custom colors or verde green finish.
